Please tick off the requested service level:

- | | |
|--|------------|
| <input type="checkbox"/> Full test (recommended every 3 years) | Fr. 42.-- |
| <input type="checkbox"/> Repair to level 1 | Fr. 80.-- |
| <input type="checkbox"/> Repair to level 2 | Fr. 135.-- |
- I do not want the beacon to be repaired. Please contact me about the opportunity to purchase a replacement device (VS 2000, VS 2000 Pro, Mammuth Barryvox) at a reduced price.
- Please contact me about the purchase of a new device

If the cost of repair surpassed the amount you have indicated, we will quote the full cost to you. If the device has to be returned without repair, we have to charge Fr. 30.- for the diagnosis. Correct disposal of un-repaired devices is free.

All prices including VAT plus Fr. 12.- for handling.
Payment within 30 days against bill.

Service levels:

- Full test: - visual and mechanical check
 - Check of technical performance with instruments.
 - Consumables (button, lock, label) are replaced if necessary
- Repair level 1: Full test plus replacement of peripheral components, without opening the case (battery contact, carrying strap etc.).
- Repair level 2: Full test plus repair including opening the case (antenna, crystal, rotary switch, speaker, electronic circuits, including re-tuning and re-packaging in a new case).
- Warranty: 6 months for replaced components. We do not assume any further liability. Your receipt is the proof of warranty.
